

The Griffith Uplands Trail is a physically challenging 10 km hiking/snowshoeing loop encompassing four mountains in the Madawaska Highlands—Lake, Buck, Spring and Godin. This rewarding wilderness route traverses a rugged Area of Natural and Scientific Interest composed of marble bedrock with open upland forests of large tooth aspen, red oak, white pine and remnant red pine. This undulating backcountry trail features lichen covered stone barrens, glacial erratics and expansive bald rock ridges ripe with blueberries and breathtaking views of the Madawaska River Valley below.

Hiking time: 4 - 4 1/2 hours

### ***Directions***

At the bridge on Highway 41 in the village of Griffith turn north on Highland Creek Road and drive 2.2 km to the trailhead

P.O. Box 180, 19 Parnell Street
